Career Objective

Motivated Front-End Developer with strong knowledge of **HTML, CSS, JavaScript, and React.js**. Skilled in building responsive and user-friendly web applications, integrating **APIs** for dynamic data handling, and using **Git/GitHub** for version control. Eager to apply technical skills, collaborate on team projects, and grow in a professional development environment.

Technical Skills

- **Web Technologies**: HTML5, CSS3, JavaScript, React.js
- **Frameworks**: Tailwind CSS
- **Tools**: Git, GitHub, VS Code

Education

- **Bachelor of Computer Applications (BCA)**
  Govt. Post Graduate College, Ambala Cantt (KUK University) | 2020 – 2023

Work Experience

Quality Control Agent (Part-time) | Altruist Pt. Ltd. ***Apr 2025 – Jan 2025***

- Checked products and services as per company standards.
- Learned how to follow quality guidelines and improve accuracy.

Tender Executive | Primus Pharmaceuticals ***Oct 2023 – Dec 2024***

- Assisted in preparing tender documents.
- Managed customer queries through email.
- Gained experience in documentation and communication.

PROJECTS

PokeDex App | React, Tailwind CSS, Pokémon API | https://pokedex-react-beryl-seven.vercel.app/

- Created a Pokémon viewer using React that shows each Pokémon's image, stats, type, height, and weight.
- Added a **Random Pokémon button** that loads a new Pokémon every time the user clicks it.
- Used React state to update the data on the screen smoothly.
- Styled the whole app with Tailwind CSS to make it clean and responsive.

Todo App — React, Tailwind CSS, Local Storage | https://todo-react-app-tan-omega.vercel.app/

- Built a Todo application where users can add, check, and delete their tasks.
- Stored all tasks in local Storage so the Todo's stay saved even after refreshing or closing the browser.
- Managed all task updates using React state for smooth and fast UI changes.
- Styled the interface with Tailwind CSS to keep it simple and easy to use.

Text Translator | React, Tailwind CSS, Google Translate Rapid Api | text-translator-app-three.vercel.app

- A Text Translator App built with React and Tailwind CSS for a clean and responsive design.
- It uses Google Translate API via Rapid API to translate text from English into different languages.
- The project helps to learn state management, API integration, and conditional rendering in React.

Certification

Introduction to Front-End Development | View Certificate
***Simplilearn** — Completed September 2025*

- Proficient in Front-End Development with HTML, CSS, JavaScript, and React for building responsive web applications.
- Experienced in version control and collaborative development using Git and GitHub.
